★ GAME-CHANGING OPPORTUNITY

# Why This Program Changes Everything

## 100% Job Guarantee

Written agreement on letterhead — legally binding commitment to your success

## Pay After Placement

Only ₹15,000 upfront, remaining ₹30,000 after you secure your position

## Internationally Accredited

IBM-accredited diploma recognized globally by top employers

## Real-World Projects

10 live projects + 2 industry capstone projects for your portfolio

No bank loans. No hidden fees. Just our direct commitment to launching your career in Data Science and Generative AI.

# The Investment That Pays for Itself

₹15K

₹30K

0%

## Initial Payment

Less than a mobile — your entry to a high-paying tech career

## After Placement

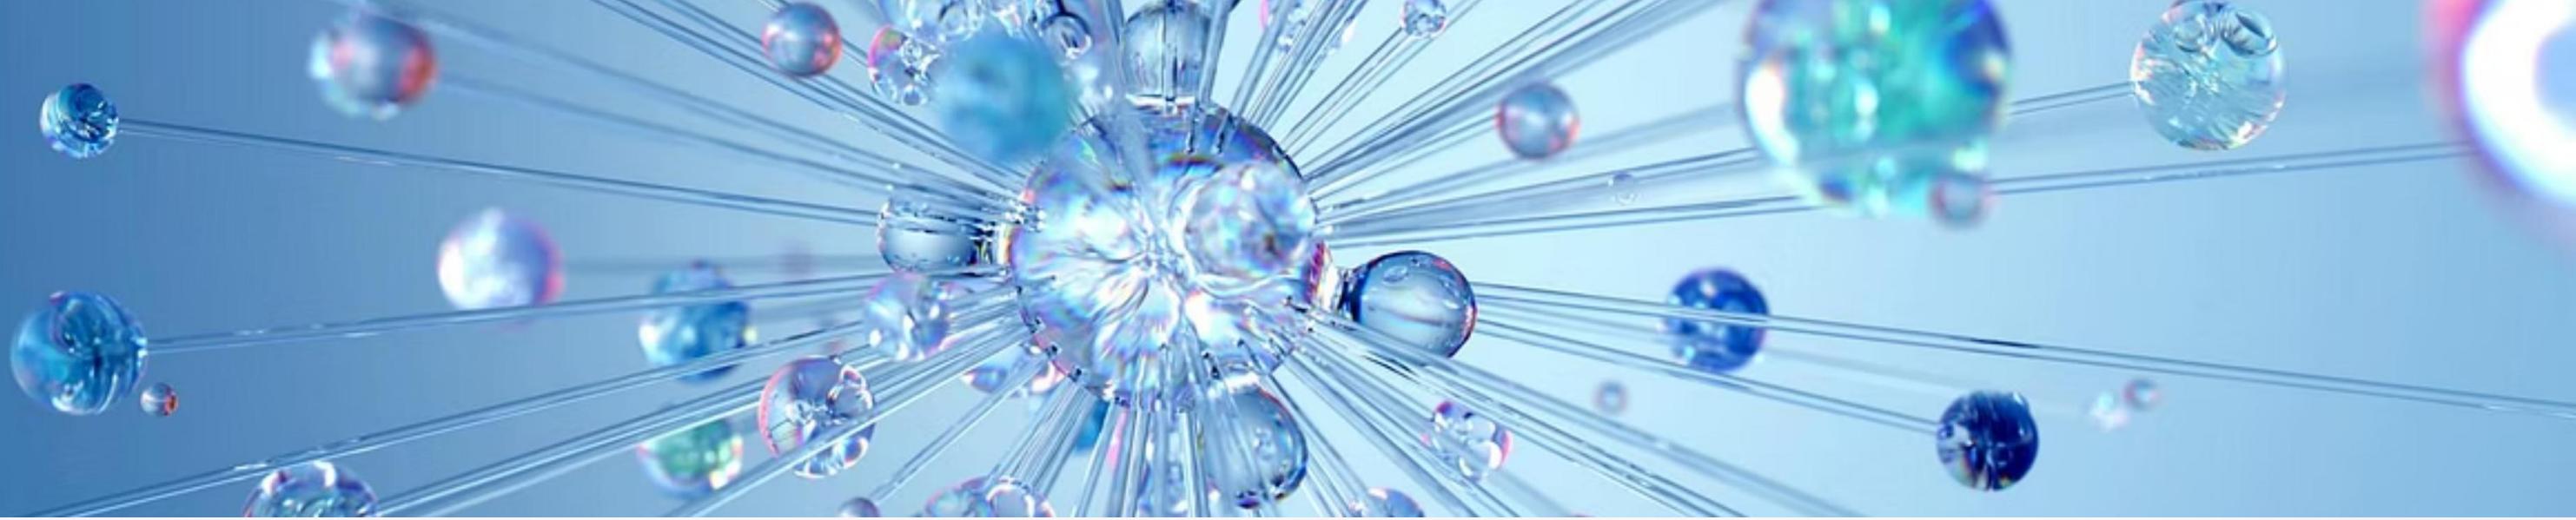

Pay only when you're earning. Your success funds your education.

## Bank Involvement

We finance you directly. No credit checks, no loan.

- Legal Protection:** Every commitment is documented in a written agreement on official letterhead, making it a legally enforceable contract. Your investment is protected.

 CURRICULUM EXCELLENCE

# Master the Complete Data Science & AI Stack

## Foundation to Advanced

- Python programming & data structures
- Statistical analysis & mathematics
- Machine learning algorithms
- Deep learning & neural networks
- Natural Language Processing (NLP)

## Cutting-Edge Generative AI

- Large Language Models (LLMs)
- Prompt engineering mastery
- GPT, BERT, and transformer models
- AI model deployment & MLOps
- Real-world AI application development

# Learn by Doing: Project-Based Mastery

1

## Live Industry Projects

Work on 10 real-world projects with live datasets, solving actual business problems from day one.

2

## Capstone Excellence

Complete 2 comprehensive capstone projects that showcase your end-to-end capabilities to employers.

3

## Portfolio Building

Graduate with a GitHub portfolio that proves your skills — not just certificates, but deployed solutions.

Every project is designed to mirror real workplace scenarios, preparing you for day-one impact at your new job.

# Lifetime Learning Resources

## Lifetime LMS Access

Every live class recording, forever. Review concepts anytime, refresh your skills, stay current.

## Soft Skills Training

Communication, teamwork, presentation skills — the complete professional package employers demand.

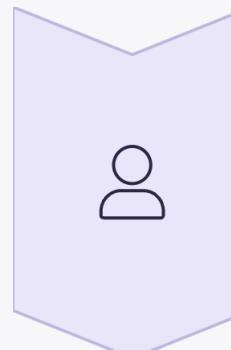

## ATS-Friendly Resumes

Expert-crafted resumes that beat applicant tracking systems and land interviews.

CAREER LAUNCH

# Your Path to Placement

## Profile Optimization

LinkedIn makeover that attracts recruiters and showcases your AI expertise

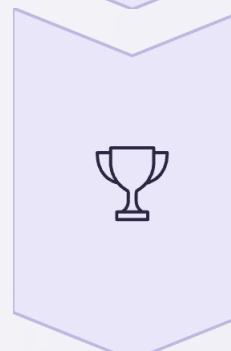

## Interview Prep

Mock interviews, technical rounds, behavioral coaching — full preparation

## Placement Drives

Direct access to hiring partners actively seeking Data Science and AI talent

## Job Secured

Land your role and begin your high-growth career — guaranteed

# The KAE Education Advantage

## Globally Recognized

International Baccalaureate (IB) accreditation ensures your diploma is valued worldwide, opening doors across continents.

## Industry-Aligned

Curriculum designed with input from hiring managers at top tech companies — learn exactly what employers need.

## Student-First Financing

We believe in you before you have the job. Our unique payment structure proves our confidence in your success.

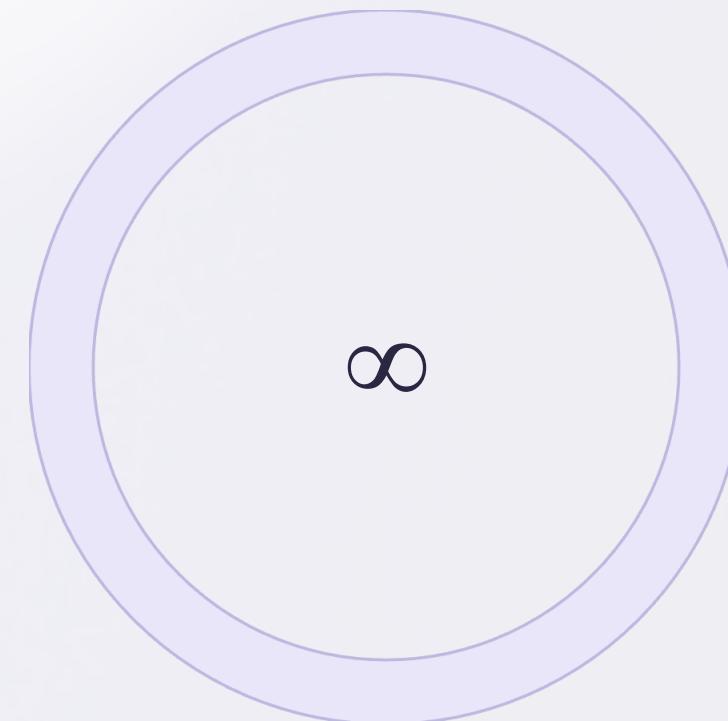

### Placement Rate

Every committed learner placed — it's not just a promise, it's our track record

### Projects Completed

Hands-on experience that makes you job-ready from day one

### Access Duration

Lifetime learning materials and ongoing support for continuous growth

# What Makes This Risk-Free for You

## Legal Guarantee

Written agreement on official letterhead — legally binding commitment to place you in a Data Science or AI role.

## Minimal Upfront Cost

₹15,000 is less than most certification courses, yet it opens the door to a career-changing diploma and guaranteed job.

## Payment After Success

The remaining ₹30,000 is paid only after you're placed and earning — your success is our success.

"This isn't just education — it's a partnership in your career transformation. We succeed only when you succeed."

# Ready to Transform Your Future?

The data science and AI revolution is here. Companies are desperately seeking qualified professionals. The question isn't whether these jobs exist — it's whether you'll be ready to claim one.

01
